

Cerebral Palsy Bulletin

Volume 3
 C. MICHIGAN

INDEX

MAY 10 1962

MEDICAL
 LIBRARY

Authors and subjects of articles in the body of the Bulletin are indexed together. There is a separate index to subjects of articles abstracted, and another to authors of articles abstracted. Correspondence is indicated by the symbol (C).

KEY TO ISSUES AND PAGES

Issue	Pages	Issue	Pages
No. 1	1-98	No. 4	311-420
No. 2	99-204	No. 5	421-526
No. 3	205-310	No. 6	527-636

Abnormalities, developmental, palm-prints and, 340

— 'Risk Register' as method of early detection, 481

Adolescent and young adult with cerebral palsy, 99
 — assessment, training and employment of, 127, 135, 139

Adult, young, with cerebral palsy, 99
 — assessment, training and employment of, 127, 135, 139

ALLEN, G., and Others: 'Mongolism', 295 (C)

ALVIN, Juliette: Music therapy and the cerebral palsied child, 255

Amino-acids, excretion in urine, 214

ANDREN, L.: Modern concept of congenital dislocation of the hip, 167

Animal behaviour, 424

Anoxia, cerebral, 105

— pathological anatomy, 559

Association of German Societies for the Care of Children with Cerebral Palsy, 636

L'Association des Infirmes Moteurs Cérébraux, 504

Ataxia, speech defects in, 65

Athetosis, drug therapy, 498

— thinness associated with, 493

— treatment, evaluation, 497

Audiometry in young cerebral palsied children, 151

Auto-antibodies and the nervous system, 383

Autofaradisation for paretic muscles, 77 (C)

d'AVIGNON, M.: Care of children with motor handicaps in Sweden, 216

Babinski response in cerebral palsy, 452

— in infants and children, 449

BACK, D. E. See FISCH, L., 145

BACK, E. H.: Problems of children with cerebral palsy in the West Indies, 591

BARN, Jane. See INGRAM, T. T. S., 57

BATTEN, Frederick Eustace, 1865-1918, biography, 527

BAX, M. C. O.: Choreiform syndrome and other work done by Heinz Precht, 317

— Palm-prints, 321

— Animal behaviour, 424

— Acute hemiplegia in childhood, 444

— Hemiplegia in children and adults, 533

— See MAC KEITH, R. C., 135

Bed-wetting. See Enuresis

Behaviour and reactions of newborn infant, use and abuse of film in recording, 472

— imbecile, study of, 465

— of animals, 424

— signs in sleeping infants, 605

BENDA, C. E. See ALLEN, G., and Others, 295

BENSON, P. F.: Changes in the circulation at birth, 426

— and JOSEPH, M. C.: The blood-brain barrier, 510 (C), 612 (C)

ten BERGE, B. S., biography, facing page 311

— Influence of the placenta on cerebral injuries, 323

Bergen, paediatrics in, 170

BERRY, W. T. C.: Mongolism and fluorine in drinking-water, 186 (C)

BIOGRAPHY

Batten, Frederick Eustace, 527

ten Berge, B. S., facing page 311

Peiper, Albrecht, 1

Phelps, Winthrop M., 205

Weber, Frederick Parkes, 421

BISHOP, William John, obituary of, 508, 509

BLEHOVA, B., and HEYROVSKY, L.: Penicillamine as a diagnostic aid in Wilson's disease, 607

INDEX

Blindness in pre-school children, 209
 Blood-brain barrier, 311, 510 (C), 610 (C), 612 (C)
 Blood cells, red. See Erythrocytes
 — circulation, changes at birth, 426
 BOBATH, B. O. See BOBATH, K., 613
 BOBATH, K., and BOBATH, B. O.: Is treatment really necessary?, 613 (C)

 - general principles of, 271
 - training and employment of adolescents and young adults with, 127, 135, 139
 - Babinski response in, 452
 - bracing of lower extremity in, 34
 - clinic at Saint Justine Hospital, Montreal, 269
 - genesis of, problems of hypoxia in, 29
 - hemiplegic, in children and adults, 533
 - hydrotherapy in, 500
 - in adolescent and young adult, 99, 127, 135, 139
 - in Denmark, 598
 - in France, 504
 - in South Africa, 14
 - increased resistance to passive movement in, 113
 - minimal, 293 (C), 391 (C), 512 (C), 513 (C), 615 (C)
 - physical therapy in, 11
 - provision of special facilities for 'ineducable spastics', 573
 - psychotherapy in, 499
 - relation of maternal diabetes to, 393 (C)
 - speech disorders associated with, description and classification, 57
 - speech therapy in, 499
 - a French view, 505
 - terminology and classification, 57
 - treatment, assessment, 494
 - difficulties in the assessment of, 272
 - evaluation; seminar organised by the World Commission on Cerebral Palsy, 494
 - methods of recording progress, 498
 - problem of relating assessment to, 274
 - vocational training for the cerebral palsied, 355
 - work therapy in, 359
- Childbirth, painless, Soviet or psychoprophylactic method, 159
- Children, acute hemiplegia in, 444
 - aphasic and dysphasic, assessment of, 53
 - application of induced rhythms and evoked potentials in, 602
 - ataxic diplegia and ataxia in, speech defects associated with, 65
 - athetoid cerebral palsy in, thinness associated with, 493
 - attitudes in school, 567
 - Babinski response in, 449
 - backward, international conference, 434
 - 'brain-damage' in, 74 (C), 75 (C), 76 (C)
 - care of, in hospital, 318
 - cerebral palsied, assessment of hearing in, 145
 - audiometry in, 151
 - dental care, 488
 - development of manual perception in during re-education, 553
 - disturbances of manual perception in, 544
 - educability of, 435
 - education, 183 (C), 184 (C)
 - German Societies for the care of, 636
 - hearing tests in, 148
 - in West Indies, problems of, 591
 - management, 499
 - music and therapy and, 255
 - phoniatric treatment, 222
 - physical treatment, 11
 - speech defects in, 57
 - treatment, value of, 613 (C)
 - convulsions in, management, 583
- cranial and cerebral trauma of, electroencephalography in, 603
- deaf, training and education, 48
- development, parents rôle in, 319
- diseases of the nervous system in, electro-myography in, 605
 - dyskinetic, speech defects in, 65
 - effect of illness and stress in pregnancy on, 531
 - enuretic, electroencephalography in, 604
 - expanding intracranial lesions in, electroencephalography of, 604
 - extrapyramidal disease, clinical application of kymography in, 606
 - hearing and speech disorders in, 46
 - for spoken language, 39
 - tests in, 146
 - hemiplegia in, 533
 - hemiplegic, development of plantar flexion in, despite regular physiotherapy, treatment, 290 (C), 291 (C), 292 (C)
 - speech defects in, 62
 - hyperactive, tranquilizers for, 379
 - intellectual development, Piaget's approach to problems of, 25
 - mentally deficient, effect of glutamic acid on intelligence of, 10
 - motor-handicapped, care of, in Sweden, 216
 - myopia in early and later childhood, development, 373
 - neuro-radiological observations in, 607
 - paediatrics in Bergen, 170
 - plantar response in, 449
 - pre-school, blindness in, 209

INDEX

- psychiatry, fifth international congress of Child Psychiatry, 514
- first European congress of Paedo-psychiatry, 281
- schizophrenic syndrome in, progress report of a Working Party, 501
- spasmophilic, electromyographic studies in, 605
- speech disorders in, classification, 59
- stress reactions, regulation mechanisms of carbohydrate metabolism in, 606
- visual capacity in young child, development of, 364

SUBJECTS OF ARTICLES ABSTRACTED

Abnormalities, congenital, following Asian influenza in pregnancy, 309

— hyperemesis gravidarum as cause of, 308

— multiple congenital, caused by extra chromosome; a new autosomal trisomy syndrome, 420

ACTH. *See* Corticotrophin

Apnoea, neonatal, relation to development at three years of age, 97

Asphyxia, foetal, early diagnosis, 419

Athetosis, etiology, neonatal jaundice in, 203

Autism, infantile, 5-hydroxyindole metabolism in, 521

Behaviour disorders in retarded children, tranquilizers for, 525

Bilirubin metabolism in newborn infants, effect of sulfisoxazole administered to mother on, 630

Birth weight and clinical findings in diplegia, correlation between, 418

Brain, central haemorrhagic encephalopathy, in early infancy, 92

— damage, acquired, height and weight of children with, 89

— development, postnatal arrest and regression, 95

— in mental retardation, 96

— influenzal encephalopathy, histological study, 93

Cataract in children, etiology, 308

Cerebral palsy in twins, 522

— infantile, eyes and vision in, 524

Ceruloplasmin preparation in hepatolenticular degeneration, 417

Children, autistic and mentally retarded, 5-hydroxyindole metabolism in, 521

— brain-damaged, height and weight of, 89

— cataract in, etiology, 308

— cerebral palsied, height and weight of, 89

— development at three years of age, relation of neonatal apnoea to, 97

— epileptic hemiplegia in, clinical course, pathogenesis, and treatment, 90

— febrile seizures in, clinical and electroencephalographic study, 203

— handicapped, dental problems of, 628

— intelligence, assessment by puff test, 525

— learning difficulties, paediatric management, 201

— prematurely and maturely born, mental development from 2 to 5 years of age, 629

— — — — physical development from 2 to 4 years of age, 523

— retarded, with behaviour disorders, tranquilizers in, 525

— school-aged, of very low birth weight, incidence of mental and physical handicaps in, 524

— Sturge-Weber syndrome in, clinical picture, 306

Chromosome, extra, causing multiple congenital anomalies; a new autosomal trisomy syndrome, 420

— translocation as cause of familial mongolism, 306

— in mongol boy, 632

— in mongol girl, 200

Convulsions in newborn, electroencephalogram in, 414

Cold injury in newborn infants, 95

Corticotrophin, effect on infantile spasms with mental retardation, 413

— in hypsarrhythmia, 204

— in measles encephalitis, 631

Cortisone in icterus gravis neonatorum, 415

— in measles encephalitis, 631

Craniostenosis, 307

Death, causes in premature infants, 309

Development, mental, from 2 to 5 years of age, of prematurely and maturely born children, 629

— physical, from 2 to 4 years of age, of prematurely and maturely born children, 523

Diabetes, maternal, effect on foetal ear, 98

Diplegia, congenital, reproductive histories of mothers of patients with, 522

— correlation between birth weight and clinical findings in, 418

INDEX

- Ear, foetal, effect of maternal diabetes on, 98
- Electroencephalogram in neonatal convulsions, 414
- Encephalitis, measles, treatment with corticotrophin and cortisone, 631
- post-influenzal, and influenzal encephalopathy, histological study, 93
- Encephalopathy, central haemorrhagic, in early infancy, 92
- influenzal, histological study, 93
- Epilepsy, television-induced, 414
- Exercise, effects on motor weakness in neurological disease, clinical and experimental study, 310
- Eye, abnormalities, congenital, associated with prematurity, 94

- bilirubin metabolism in, effect of sulfisoxazole administered to mother on, 630
- cold injury in, 95
- congenital malformations in, following hyperemesis gravidarum, 308
- convulsions in, electroencephalographic study, 414
- premature, causes of death in, 309
- congenital abnormalities of eye in, 94
- delivered by caesarean section before labour, origin of hyaline membrane disease in, 200
- — hyperbilirubinaemia in, clinical course, 415
- — icterus gravis in, drug treatment, 415
- mental and physical handicaps when of school-age, 524
- — 'uncomplicated' hyperbilirubinaemia in, lack of association with neurological defects at 3 years of age, 630
- spasms in, natural history, 412
- — with mental retardation, effect of corticotrophin and prednisolone on, 413
- Influenza, Asian, in pregnancy, congenital defects following, 309
- post-influenzal encephalitis and influenzal encephalopathy, histological study, 93
- Infra-red radiation, decrease in muscle spasm produced by, 88
- Intelligence of young children, assessment by puff test, 525
- Jaundice, cortisone and polyvinylpyrrolidone in icterus gravis neonatorum, 415
- neonatal, glucose-6-phosphate dehydrogenase deficiency, a new aetiological factor in, 415
- — in etiology of athetosis, 203
- Learning difficulties of school-child, paediatric management, 201
- Malformations. *See* Abnormalities
- Measles encephalitis, treatment with corticotrophin and cortisone, 631
- Mental defectives, reading, reckoning, and special schooling for, 202
- deficiency, 5-hydroxyindoles in, 416
- — in twins, incidence, 90
- — morphological basis of mental retardation, 96
- development, from 2 to 5 years of age, of prematurely and maturely born children, 629
- handicaps of school-age children of very low birth weight, 524
- retardation with infantile spasms, effect of corticotrophin and prednisolone on, 413
- Mongolism, familial, chromosome translocation as cause of, 306
- male mongoloid with 46 chromosomes, 632
- mongol girl with 46 chromosomes, 200
- relation to emotional shock in early pregnancy, 629
- Muscle spasm, decrease produced by ultrasound, hot-packs, and infra-red radiation, 88
- Muscles, motor weakness in neurological disease, effects of exercise on, clinical and experimental study, 310
- spasticity of central nervous origin, 'quiloflex' treatment, 418

INDEX

- Nervous system, diseases, motor weakness in, effects of exercise on, clinical and experimental study, 310
- Otitis, haemorrhagic, in foetus, associated with maternal viral pneumonia, 308
- Paralysis, spastic, reflex therapy in, 87
- Parkinsonism, surgical treatment, 307
- Phenol, intrathecal, in relief of spasticity, 88
- Phenylalanine-low diets in phenylketonuria, 305
- Phenylketonuria, treatment with phenylalanine-low diets, 305
- with normal intelligence and behaviour disturbances, 305
- Plasma proteins and mucoid substances, interaction, relation to hyaline membrane formation, 201
- Pneumonia, viral, maternal, as cause of haemorrhagic otitis in foetus, 308
- Poliomyelitis, ataxic form of, 524
- Polyvidone. *See* Polyvinyl-pyrrolidone
- Polyvinyl-pyrrolidone in icterus gravis neonatorum, 415
- Prednisolone, effect on infantile spasms with mental retardation, 413
- Pregnancy, Asian influenza in, congenital defects following, 309
- emotional shock in, relation to mongolism, 629
- viral pneumonia in, as cause of haemorrhagic otitis in foetus, 308
- Puff test in assessment of intelligence of young children, 525
- 'Quiloflex', in muscular spasticity of central nervous origin, 418
- Reflex therapy in spastic paralysis, 87
- Rigidity, experimental study, 87
- Shock, emotional, in early pregnancy, relation to mongolism, 629
- Spasms, flexor, intrathecal phenol in, 88
- infantile, natural history, 412
- — with mental retardation, effect of corticotrophin and prednisolone on, 413
- muscular, effect of ultrasound, hot-packs, and infra-red radiation on, 88
- Spastic paralysis. *See* Paralysis, spastic
- Spasticity, experimental study, 87
- intrathecal phenol in relief of, 88
- muscular, of central nervous origin, 'quiloflex' treatment, 418
- Sturge-Weber syndrome in children, clinical picture, 306
- Sulfisoxazole. *See* Sulphafurazole
- Sulphafurazole, maternally administered, effect on bilirubin metabolism in newborn, 630
- Teeth, dental problems of handicapped children, 628
- Television-induced epilepsy, 414
- Tranquillizers in retarded children with behaviour disorders, 525
- Twins, cerebral palsied, 522
- mentally defective, incidence, 90
- Ultrasonic radiation, decrease in muscle spasm produced by, 88
- Virus infections and foetal malformations, 93
- Vision, in infantile cerebral palsy, 524
- Weight and height of children with cerebral palsy and acquired brain damage, 89
- Wilson's disease. *See* Hepatolenticular degeneration
